Are you looking for a top-notch preschool for your child? Le Petite Paradis Montessori & Bank Street offers bilingual French, and is also eco-friendly. Their mission is to create a harmonious international environment, uniting children from various cultural backgrounds and working in a team environment within a relaxed positive atmosphere. They offer your child an opportunity to learn French as a second language from a young age. By combining both Montessori and Bank Street philosophies, your child will have an early start to a strong education. Le Petit starts teaching children about an eco-friendly way of life, giving them awareness for the future of their planet. They contribute a unique service using education, psychology, communication, caring and nurturing with elements of creativity, play recreation, enthusiasm, fun, humor and lots of love resulting in confidence, independence, high self-esteem and overall happiness. That's why they call it The Little Paradise! Check them out!
